Quality Assurance

IRR Quality Assurance Program

At IRR, delivering a quality report is a top priority. Integra has an internal Quality Assurance Program in which managers review material and pass an exam in order to attain IRR Certified Reviewer status. By policy, every Integra valuation assignment is assessed by an IRR Certified Reviewer who holds the MAI designation, or is, at a minimum, a named Director with at least ten years of valuation experience.

This quality assurance assessment consists of reading the report and providing feedback on its quality and consistency. All feedback from the IRR Certified Reviewer is then addressed internally prior to delivery.

Note: the intent of this internal assessment process is to maintain report quality. Unless specified below, the IRR Certified Reviewer did not participate in the valuation, nor should their involvement be construed as an appraisal review as defined by USPAP.

Designated IRR Certified Reviewer

An internal quality assurance assessment was conducted by an IRR Certified Reviewer prior to delivery of this appraisal report.

Scope of Work

Introduction

The appraisal development and reporting processes require gathering and analyzing information about the assignment elements necessary to properly identify the appraisal problem. The scope of work decision includes the research and analyses necessary to develop credible assignment results, given the intended use of the appraisal. Sufficient information includes disclosure of research and analyses performed and might also include disclosure of research and analyses not performed.

To determine the appropriate scope of work for the assignment, the intended use of the appraisal, the needs of the user, the complexity of the property, and other pertinent factors were considered. The concluded scope of work is described below.

Research and Analysis

The type and extent of the research and analysis conducted are detailed in individual sections of the report. The steps taken to verify comparable data are disclosed in the addenda of this report. Although effort has been made to confirm the arms-length nature of each sale with a party to the transaction, it is sometimes necessary to rely on secondary verification from sources deemed reliable.

Subject Property Data Sources

The legal and physical features of the subject property, including size of the site, flood plain data, seismic zone designation, property zoning, existing easements and encumbrances, access and exposure, and condition of the improvements (as applicable) were confirmed and analyzed.

Inspection

Details regarding the property inspection conducted as part of this appraisal assignment are summarized as follows:

Property Inspection		
Party	Inspection Type	Inspection Date
John R. Praytor, MAI, AI-GRS	On-site	August 24, 2021
James O. Turner II, MAI	None	N/A
John B. Hooker	On-site	August 18, 2021

Valuation Methodology

Three approaches to value are typically considered when developing a market value opinion for real property. These are the cost approach, the sales comparison approach, and the income capitalization approach. Use of the approaches in this assignment is summarized as follows:

Approaches to Value		
Approach	Applicability to Subject	Use in Assignment
Cost Approach	Not Applicable	Not Utilized
Sales Comparison Approach	Applicable	Utilized
Income Capitalization Approach	Not Applicable	Not Utilized

In developing an opinion of value for the subject, only the sales comparison approach is used. This approach is applicable to the subject because there is an active market for similar properties, and sufficient sales data is available for analysis.

The cost approach is not applicable because there are no improvements that contribute value to the property, and the income approach is not applicable because the subject is not likely to generate rental income in its current state.

COVID-19 Impact on Current Valuations

Transaction indicators are the best measure of any impact on values due to COVID-19. At the beginning of the pandemic, many transactions were tabled and market data was scarce. After an initial lull in activity, price discovery has occurred in many markets across different property types and transactions are getting done. Market instability remains a factor on various levels:

Based on discussions and interviews with a wide range of market participants including brokers, lenders, asset managers, owners, property managers and others, a variety of concerns, and opportunities, are apparent.

The Virus

A surge in COVID-19 cases throughout the country began in 4Q20. Infection rates are exploding with many state and local governments restricting movement and social gatherings. The stock market rose to new highs in 4Q20 on the news of multiple promising vaccine options expected to first become widely available to health care workers and then the general public by mid-2021. In the interim, volatility will remain with starts and stops in economic activity. A widely distributed vaccine is critical for bringing workers back to the office; for allowing public schools to remain open with consistency; and for perceived safe use of public transportation in getting people to work.

Macro-Economic Impacts

Not surprisingly, 3Q20 GDP was up significantly but varies considerably by segment. Consumption of goods is up while consumption of services remains off, due in large part to households remaining in various levels of lockdown in many parts of the country. Warehouses and manufacturing are winners. Hotels, retail, and restaurants remain weak.

State and local finances are troubling not to mention the outlook for employers and workers, particularly in the service sector, who remain on the downside of a K shaped recovery.

After initially ramping up cash reserves to cover bad loans, many larger lending institutions have begun reducing those set-asides as the expectation of losses is on the decline. Many smaller to mid-size banks, which have typically been the primary capital source to local, service-oriented businesses, may not be so fortunate.

Rates of Return and Valuation Methodology

Offsetting the increased risk due to uncertainty in the property markets is the Fed's monetary policy of holding rates down to enhance liquidity in the debt markets. While many financial institutions have lowered their loan to value ratios as a risk management tool, the cost of borrowing is at historic lows for assets with sustainable cash flow and solid sponsors. The result is downward pressure on rates of return where leverage is attainable but offset to some extent by a rise in equity return requirements. As transactions continue to occur, the overall impact on rates of return, and how they are responding differently by property type and location, is becoming apparent.

Some market participants believe the answer to market value lies in capitalization rates while others believe rates are not moving. Instead, the value impact is limited to cash flow loss plus profit until re-stabilization occurs. Once again, the answers vary by property type and location.

The following valuation tempers the various inputs given the wide range of data in the market. Care must be taken not to “double hit” the analysis by modeling lower net income via lower performance projections and at the same time raising the return requirements, particularly in light of a low interest rate environment.

Market Sentiment/Participant Interviews

In addition to transaction data, which is slowly materializing, we have interviewed market participants (developers, investors, lenders, brokers) as a leading indicator of where the market is currently, and where they believe the market is heading. These survey results have been analyzed and incorporated into our analysis and conclusions.

Development Potential Discussion of Parcel E

Parcel E is adversely impacted by standing water at the southwest and south side of the site. There is a storm drainage pipe that enters the site at the northwest corner. Based on our physical observations, the stormwater run-off from the adjacent lot to the north crosses Parcel E. There is approximately 1 to 2 feet of standing water on approximately 50% of the site. Before the site could be developed with a commercial building, the water would need to be drained, the lower elevation portions of the site would need to be raised a minimum of 3 feet, and the storm water pipe would need to be extended across Parcel E. Based on our calculations, the site preparation would cost approximately \$125,000. Therefore, we make a negative 35% site preparation adjustment to each sale to reflect site improvements that would be required prior to construction of a commercial building on Parcel E.

Streets, Access and Frontage

Details pertaining to street access and frontage are provided in the following table.

Streets, Access and Frontage	
Street	Harbour Pointe Drive
Frontage Feet	Parcel D 187 feet/ Parcel E 202 feet
Paving	Asphalt

Sidewalks	None
Lanes	2 way, 1 lane each way
Direction of Traffic	North/South

Traffic Levels	Low
Signals/Traffic Control	Stop sign
Access/Curb Cuts	Yes/No Curb Cuts
Visibility	Average

According to the Mississippi Department of Transportation, the average daily traffic count in front of the subject along Lake Harbour Drive is 22,000 vehicles per day. There is not an average daily traffic count in front of the subject along Harbour Point Drive. However, the traffic counts are minimal.

Easements, Encroachments and Restrictions

A current title report was not provided for review. There are no apparent easements, encroachments, or restrictions that would adversely affect value. This valuation assumes no adverse impacts from easements, encroachments, or restrictions, and further assumes that the subject has clear and marketable title.

Other Land Use Regulations

There are no other known land use regulations that would affect the property.

Conclusion of Site Analysis

Overall, the physical characteristics and the availability of utilities result in a functional site, suitable for a variety of uses including those permitted by zoning. Uses permitted by zoning include all commercial uses allowed in the General Commercial (C-2) District. Food product carry-out and delivery stores, banks, branch banks, drive-thru ATM's, and other banking facilities, laundry and dry cleaning pick up stations, public streets, highways, private streets and alleys and other uses found in the ordinances located in the addenda of this report. No other restrictions on development are apparent.

Real Estate Taxes

Real estate tax assessments are administered by Madison County and are estimated by jurisdiction on a county basis for the subject. Real estate taxes in this state and jurisdiction represent ad valorem taxes, meaning a tax applied in proportion to value. Real estate taxes are based upon assessed value, which is meant to represent 15% of true value, that to be somewhat synonymous with market value. The gross tax rate is expressed in millage and then is subject to different reduction factors to arrive at an effective tax rate. The real estate taxes for an individual property may be determined by dividing the assessed value of a property by 1,000, then multiplying the estimate by the effective tax rate. The current year real estate taxes have been paid.

Real estate taxes and assessments for the current tax year are shown in the following table.

Taxes and Assessments - 2020						
Tax ID	Assessed Value			Taxes and Assessments		
	Land	Improvements	Total	Ad Valorem Tax Rate	Taxes	Total
072I-32A-012/04.00	\$10,428	\$0	\$10,428	10.776000%	\$1,124	\$1,124

	\$23,210	\$0	\$23,210		\$2,501	\$2,501

Assessor's Market Value			
Tax ID	Land	Improvements	Total
072I-32A-012/04.00	\$69,520	\$0	\$69,520
072I-32A-012/05.00	\$30,320	\$0	\$30,320
072I-32A-012/06.00	\$54,890	\$0	\$54,890
	\$154,730	\$0	\$154,730

Based on the concluded market value of the subject, the assessed value appears low. In the State of Mississippi, the sale of a property does not trigger an automatic reassessment of the property; instead, properties are reassessed every 3 to 5 years depending on the growth rate of the county.

Highest and Best Use – Parcel C and D

The highest and best use of a property is the reasonably probable use resulting in the highest value, and represents the use of an asset that maximizes its productivity.

Process

Before a property can be valued, an opinion of highest and best use must be developed for the subject site, both as though vacant, and as improved or proposed. By definition, the highest and best use must be:

- Physically possible.
- Legally permissible under the zoning regulations and other restrictions that apply to the site.
- Financially feasible.
- Maximally productive, i.e., capable of producing the highest value from among the permissible, possible, and financially feasible uses.

As Though Vacant

First, the property is evaluated as though vacant, with no improvements.

Physically Possible

The physical characteristics do not appear to impact the development potential of the site. Overall, the physical characteristics of the site and the availability of utilities result in functional utility suitable for a variety of uses.

Legally Permissible

The site is zoned C-2A, General Commercial District Arterial Streets. Permitted uses include all commercial uses allowed in the General Commercial (C-2) District. Food product carry-out and delivery stores, banks, branch banks, drive-thru ATM's, and other banking facilities, laundry and dry cleaning pick up stations, public streets, highways, private streets and alleys and other uses found in the ordinances located in the addenda of this report. There are no apparent legal restrictions, such as easements or deed restrictions, effectively limiting the use of the property. Given prevailing land use patterns in the area, only hold for future office use is given further consideration in determining highest and best use of the site, as though vacant.

Financially Feasible

Based on the accompanying analysis of the market, there is currently demand for additional hold for future office development at the current time. However, it appears a newly developed hold for future office use on the site would not have a value commensurate with its cost. It appears construction costs are currently outpacing value in the market; therefore, hold for future office use is not considered to be financially feasible. Nevertheless, it is expected the market will see an eventual rise in property values to a level justifying the cost of new construction. Thus, it is anticipated hold for future office development will become financially feasible.

Maximally Productive

There does not appear to be any reasonably probable use of the site that would generate a higher residual land value than holding the property for future development of an office use. Accordingly, holding the property for future hold for future office use, based on the normal market density level permitted by zoning, is the maximally productive use of the property.

Conclusion

Holding the property for future development of an office use is the only use which meets the four tests of highest and best use. Therefore, it is concluded to be the highest and best use of the property as though vacant.

As Improved

No improvements are situated on the subject. Therefore, a highest and best analysis as improved is not applicable.

Most Probable Buyer

Taking into account the limited demand for additional hold for future office use development in the current market, the probable buyer is a speculator.

Highest and Best Use – Parcel E

The highest and best use of a property is the reasonably probable use resulting in the highest value, and represents the use of an asset that maximizes its productivity.

The remaining physical characteristics of the site and the availability of utilities result in functional utility suitable for a variety of uses.

Valuation

Valuation Methodology

Appraisers usually consider three approaches to estimating the market value of real property. These are the cost approach, sales comparison approach and the income capitalization approach.

The **cost approach** assumes that the informed purchaser would pay no more than the cost of producing a substitute property with the same utility. This approach is particularly applicable when the improvements being appraised are relatively new and represent the highest and best use of the land or when the property has unique or specialized improvements for which there is little or no sales data from comparable properties.

The **sales comparison approach** assumes that an informed purchaser would pay no more for a property than the cost of acquiring another existing property with the same utility. This approach is especially appropriate when an active market provides sufficient reliable data. The sales comparison approach is less reliable in an inactive market or when estimating the value of properties for which no directly comparable sales data is available. The sales comparison approach is often relied upon for owner-user properties.

The **income capitalization approach** reflects the market's perception of a relationship between a property's potential income and its market value. This approach converts the anticipated net income from ownership of a property into a value indication through capitalization. The primary methods are direct capitalization and discounted cash flow analysis, with one or both methods applied, as appropriate. This approach is widely used in appraising income-producing properties.

Reconciliation of the various indications into a conclusion of value is based on an evaluation of the quantity and quality of available data in each approach and the applicability of each approach to the property type.

The methodology employed in this assignment is summarized as follows:

Approaches to Value		
Approach	Applicability to Subject	Use in Assignment
Cost Approach	Not Applicable	Not Utilized
Sales Comparison Approach	Applicable	Utilized
Income Capitalization Approach	Not Applicable	Not Utilized

Sales Comparison Approach

To develop an opinion of the subject's land value, as if vacant and available to be developed to its highest and best use, we utilize the sales comparison approach. This approach develops an indication of value by researching, verifying, and analyzing sales of similar properties.

The subject consists of two non-contiguous tracts of land, the property is divided for valuation purposes as follows:

Land Parcels			
Name	Tax ID	SF	Unit of Acres Comparison
Parcel C and D		83,172	1.91 Total SF
Parcel E		45,838	1.05 Total SF

Parcel C and D (1.91 Acres; 83,172 SF)

To apply the sales comparison approach to Parcel C and D, we searched for sale transactions within the following parameters:

- Location: Madison County
- Size: Up to 7 Acres
- Use: Commercial Use
- Transaction Date: January 1, 2017 to present

For this analysis, we use price per square foot as the appropriate unit of comparison because market participants typically compare sale prices and property values on this basis. The most relevant sales are summarized in the following table.

Analysis and Adjustment of Sales

The sales are compared to the subject and adjusted to account for material differences that affect value. Adjustments are considered for the following factors, in the sequence shown below.

Adjustment Factors	
Effective Sale Price	Accounts for atypical economics of a transaction, such as demolition cost, expenditures by the buyer at time of purchase, or other similar factors. Usually applied directly to sale price on a lump sum basis.
Real Property Rights	Fee simple, leased fee, leasehold, partial interest, etc.
Financing Terms	Seller financing, or assumption of existing financing, at non-market terms.
Conditions of Sale	Extraordinary motivation of buyer or seller, assemblage, forced sale, related parties transaction.
Market Conditions	Changes in the economic environment over time that affect the appreciation and depreciation of real estate.
Location	Market or submarket area influences on sale price; surrounding land use influences.
Access/Exposure	Convenience to transportation facilities; ease of site access; visibility from main thoroughfares; traffic counts.
Size	Inverse relationship that often exists between parcel size and unit value.
Shape and Topography	Primary physical factors that affect the utility of a site for its highest and best use.
Zoning	Government regulations that affect the types and intensities of uses allowable on a site.
Entitlements	The specific level of governmental approvals attained pertaining to development of a site.

When considering market conditions, we note that the sales took place from December 2017 to December 2020. Market conditions have been stable up through the effective date of the appraisal report.

Parcel E is adversely impacted by standing water at the southwest and south side of the site. There is a storm drainage pipe that enters the site at the northwest corner. Based on our physical observations, the stormwater run-off from the adjacent lot to the north crosses Parcel E. There is approximately 1 to 2 feet of standing water on approximately 50% of the site. Before the site could be developed with a commercial building, the water would need to be drained, the lower elevation portions of the site would need to be raised a minimum of 3 feet, and the storm water pipe would need to be extended

across Parcel E. Based on our calculations, the site preparation would cost approximately \$125,000. Therefore, we make a negative 35% site preparation adjustment to each sale to reflect site improvements that would be required prior to construction of a commercial building on Parcel E.

An upward adjustment of 10% is indicated for size. Downward adjustments are indicated for location (10%), access/exposure (10%), and site prep (35%). Overall, a substantial downward adjustment is indicated.

Reconciliation and Conclusion of Value

As discussed previously, we use only the sales comparison approach in developing an opinion of value for the subject. The cost and income approaches are not applicable, and are not used.

Based on the preceding valuation analysis and subject to the definitions, assumptions, and limiting conditions expressed in the report, our value opinion follows:

Value Conclusions			
Parcel	Interest Appraised	Date of Value	Value Conclusion
Parcel C and D	Fee Simple	August 18, 2021	\$570,000
Parcel E	Fee Simple	August 18, 2021	\$190,000

Extraordinary Assumptions and Hypothetical Conditions

The value conclusions are subject to the following extraordinary assumptions. An extraordinary assumption is an assignment-specific assumption as of the effective date regarding uncertain information used in an analysis which, if found to be false, could alter the appraiser's opinions or conclusions.

1. None

The value conclusions are based on the following hypothetical conditions. A hypothetical condition is a condition, directly related to a specific assignment, which is contrary to what is known by the appraiser to exist on the effective date of the assignment results, but is used for the purpose of analysis.

1. None

The use of any extraordinary assumption or hypothetical condition may have affected the assignment results.

The value conclusion(s) in this report consider the impact of COVID-19 on the subject property.

Exposure Time

Exposure time is the length of time the subject property would have been exposed for sale in the market had it sold on the effective valuation date at the concluded market value. Exposure time is always presumed to precede the effective date of the appraisal. Based on our review of recent sales transactions for similar properties and our analysis of supply and demand in the local market, it is our opinion that the probable exposure time for the subject at the concluded market value stated previously is 12 months.

Marketing Time

Marketing time is an estimate of the amount of time it might take to sell a property at the concluded market value immediately following the effective date of value. As we foresee no significant changes in market conditions in the near term, it is our opinion that a reasonable marketing period for the subject is likely to be the same as the exposure time. Accordingly, we estimate the subject's marketing period at 12 months.

No part of the appraisal report shall be utilized separately or out of context.
 10. Neither all nor any part of the contents of this report (especially any conclusions as to value, the identity of the appraisers, or any reference to the Appraisal Institute) shall be disseminated through advertising media, public relations media, news media or any other means of communication (including without limitation prospectuses, private offering memoranda and other offering material provided to prospective investors) without the prior written consent of the persons signing the report.
 11. Information, estimates and opinions contained in the report and obtained from third-party sources are assumed to be reliable and have not been independently verified.
 12. Any income and expense estimates contained in the appraisal report are used only for the purpose of estimating value and do not constitute predictions of future operating results.
 13. If the property is subject to one or more leases, any estimate of residual value contained in the appraisal may be particularly affected by significant changes in the condition of the economy, of the real estate industry, or of the appraised property at the time these leases expire or otherwise terminate.
 14. Unless otherwise stated in the report, no consideration has been given to personal property located on the premises or to the cost of moving or relocating such personal property; only the real property has been considered.
 15. The current purchasing power of the dollar is the basis for the values stated in the appraisal; we have assumed that no extreme fluctuations in economic cycles will occur.
 16. The values found herein are subject to these and to any other assumptions or conditions set forth in the body of this report but which may have been omitted from this list of Assumptions and Limiting Conditions.
 17. The analyses contained in the report necessarily incorporate numerous estimates and assumptions regarding property performance, general and local business and economic

conditions, the absence of material changes in the competitive environment and other matters. Some estimates or assumptions, however, inevitably will not materialize, and unanticipated events and circumstances may occur; therefore, actual results achieved during the period covered by our analysis will vary from our estimates, and the variations may be material.

18. The Americans with Disabilities Act (ADA) became effective January 26, 1992. We have not made a specific survey or analysis of the property to determine whether the physical aspects of the improvements meet the ADA accessibility guidelines. We claim no expertise in ADA issues, and render no opinion regarding compliance of the subject with ADA regulations. Inasmuch as compliance matches each owner's financial ability with the cost to cure the non-conforming physical characteristics of a property, a specific study of both the owner's financial ability and the cost to cure any deficiencies would be needed for the Department of Justice to determine compliance.
19. The appraisal report is prepared for the exclusive benefit of you, your subsidiaries and/or affiliates. It may not be used or relied upon by any other party. All parties who use or rely upon any information in the report without our written consent do so at their own risk.
20. No studies have been provided to us indicating the presence or absence of hazardous materials on the subject property or in the improvements, and our valuation is predicated upon the assumption that the subject property is free and clear of any environment hazards including, without limitation, hazardous wastes, toxic substances and mold. No representations or warranties are made regarding the environmental condition of the subject property. IRR - Jackson, Integra Realty Resources, Inc., and their respective officers, owners, managers, directors, agents, subcontractors or employees (the "Integra Parties"), shall not be responsible for any such environmental conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because we are not experts in the field of environmental conditions, the appraisal report cannot be considered as an environmental assessment of the subject property.
21. The persons signing the report may have reviewed available flood maps and may have noted in the appraisal report whether the subject property is located in an identified Special Flood Hazard Area. However, we are not qualified to detect such areas and therefore do not guarantee such determinations. The presence of flood plain areas and/or wetlands may affect the value of the property, and the value conclusion is predicated on the assumption that wetlands are non-existent or minimal.
22. We are not a building or environmental inspector. The Integra Parties do not guarantee that the subject property is free of defects or environmental problems. Mold may be present in the subject property and a professional inspection is recommended.
23. The appraisal report and value conclusions for an appraisal assume the satisfactory completion of construction, repairs or alterations in a workmanlike manner.
24. **IRR - Jackson is an independently owned and operated company. The parties hereto agree that Integra shall not be liable for any claim arising out of or relating to any appraisal report or any information or opinions contained therein as such appraisal report is the sole and exclusive responsibility of IRR - Jackson. In addition, it is expressly agreed that in any action**

- which may be brought against the Integra Parties arising out of, relating to, or in any way pertaining to the engagement letter, the appraisal reports or any related work product, the Integra Parties shall not be responsible or liable for any incidental or consequential damages or losses, unless the appraisal was fraudulent or prepared with intentional misconduct. It is further expressly agreed that the collective liability of the Integra Parties in any such action shall not exceed the fees paid for the preparation of the assignment (unless the appraisal was fraudulent or prepared with intentional misconduct). It is expressly agreed that the fees charged herein are in reliance upon the foregoing limitations of liability.**
25. IRR - Jackson is an independently owned and operated company, which has prepared the appraisal for the specific intended use stated elsewhere in the report. The use of the appraisal report by anyone other than the Client is prohibited except as otherwise provided. Accordingly, the appraisal report is addressed to and shall be solely for the Client's use and benefit unless we provide our prior written consent. We expressly reserve the unrestricted right to withhold our consent to your disclosure of the appraisal report or any other work product related to the engagement (or any part thereof including, without limitation, conclusions of value and our identity), to any third parties. Stated again for clarification, unless our prior written consent is obtained, no third party may rely on the appraisal report (even if their reliance was foreseeable).
26. The conclusions of this report are estimates based on known current trends and reasonably foreseeable future occurrences. These estimates are based partly on property information, data obtained in public records, interviews, existing trends, buyer-seller decision criteria in the current market, and research conducted by third parties, and such data are not always completely reliable. The Integra Parties are not responsible for these and other future occurrences that could not have reasonably been foreseen on the effective date of this assignment. Furthermore, it is inevitable that some assumptions will not materialize and that unanticipated events may occur that will likely affect actual performance. While we are of the opinion that our findings are reasonable based on current market conditions, we do not represent that these estimates will actually be achieved, as they are subject to considerable risk and uncertainty. Moreover, we assume competent and effective management and marketing for the duration of the projected holding period of this property.
27. All prospective value opinions presented in this report are estimates and forecasts which are prospective in nature and are subject to considerable risk and uncertainty. In addition to the contingencies noted in the preceding paragraph, several events may occur that could substantially alter the outcome of our estimates such as, but not limited to changes in the economy, interest rates, and capitalization rates, behavior of consumers, investors and lenders, fire and other physical destruction, changes in title or conveyances of easements and deed restrictions, etc. It is assumed that conditions reasonably foreseeable at the present time are consistent or similar with the future.
28. The appraisal is also subject to the following:

Extraordinary Assumptions and Hypothetical Conditions

The value conclusions are subject to the following extraordinary assumptions. An extraordinary assumption is an assignment-specific assumption as of the effective date regarding uncertain information used in an analysis which, if found to be false, could alter the appraiser's opinions or conclusions.

1. None

The value conclusions are based on the following hypothetical conditions. A hypothetical condition is a condition, directly related to a specific assignment, which is contrary to what is known by the appraiser to exist on the effective date of the assignment results, but is used for the purpose of analysis.

1. None

The use of any extraordinary assumption or hypothetical condition may have affected the assignment results.

Definitions

Definitions

The source of the following definitions is the Appraisal Institute, *The Dictionary of Real Estate Appraisal*, 6th ed. (Chicago: Appraisal Institute, 2015), unless otherwise noted.

As Is Market Value

The estimate of the market value of real property in its current physical condition, use, and zoning as of the appraisal date.

Disposition Value

The most probable price that a specified interest in property should bring under the following conditions:

1. Consummation of a sale within a specified time, which is shorter than the typical exposure time for such a property in that market.
2. The property is subjected to market conditions prevailing as of the date of valuation.
3. Both the buyer and seller are acting prudently and knowledgeably.
4. The seller is under compulsion to sell.
5. The buyer is typically motivated.
6. Both parties are acting in what they consider to be their best interests.
7. An adequate marketing effort will be made during the exposure time.
8. Payment will be made in cash in U.S. dollars (or the local currency) or in terms of financial arrangements comparable thereto.
9. The price represents the normal consideration for the property sold, unaffected by special or creative financing or sales concessions granted by anyone associated with the sale.

This definition can also be modified to provide for valuation with specified financing terms.

Effective Date

1. The date on which the appraisal or review opinion applies.
2. In a lease document, the date upon which the lease goes into effect.

Entitlement

In the context of ownership, use, or development of real estate, governmental approval for annexation, zoning, utility extensions, number of lots, total floor area, construction permits, and occupancy or use permits.

Entrepreneurial Incentive

The amount an entrepreneur expects to receive for his or her contribution to a project. Entrepreneurial incentive may be distinguished from entrepreneurial profit (often called *developer's*

profit) in that it is the expectation of future profit as opposed to the profit actually earned on a development or improvement. The amount of entrepreneurial incentive required for a project represents the economic reward sufficient to motivate an entrepreneur to accept the risk of the project and to invest the time and money necessary in seeing the project through to completion.

Entrepreneurial Profit

1. A market-derived figure that represents the amount an entrepreneur receives for his or her contribution to a project and risk; the difference between the total cost of a property (cost of development) and its market value (property value after completion), which represents the entrepreneur's compensation for the risk and expertise associated with development. An entrepreneur is motivated by the prospect of future value enhancement (i.e., the entrepreneurial incentive). An entrepreneur who successfully creates value through new development, expansion, renovation, or an innovative change of use is rewarded by entrepreneurial profit. Entrepreneurs may also fail and suffer losses.
2. In economics, the actual return on successful management practices, often identified with coordination, the fourth factor of production following land, labor, and capital; also called entrepreneurial return or entrepreneurial reward.

Exposure Time

1. The time a property remains on the market.
2. The estimated length of time that the property interest being appraised would have been offered on the market prior to the hypothetical consummation of a sale at market value on the effective date of the appraisal; a retrospective opinion based on an analysis of past events assuming a competitive and open market.

Fee Simple Estate

Absolute ownership unencumbered by any other interest or estate, subject only to the limitations imposed by the governmental powers of taxation, eminent domain, police power, and escheat.

Floor Area Ratio (FAR)

The relationship between the above-ground floor area of a building, as described by the zoning or building code, and the area of the plot on which it stands; in planning and zoning, often expressed as a decimal, e.g., a ratio of 2.0 indicates that the permissible floor area of a building is twice the total land area.

Highest and Best Use

1. The reasonably probable use of property that results in the highest value. The four criteria that the highest and best use must meet are legal permissibility, physical possibility, financial feasibility, and maximum productivity.
2. The use of an asset that maximizes its potential and that is possible, legally permissible, and financially feasible. The highest and best use may be for continuation of an asset's existing use or for some alternative use. This is determined by the use that a market participant would have in mind for the asset when formulating the price that it would be willing to bid. (ISV)

3. [The] highest and most profitable use for which the property is adaptable and needed or likely to be needed in the reasonably near future. (Uniform Appraisal Standards for Federal Land Acquisitions)

Investment Value

1. The value of a property to a particular investor or class of investors based on the investor's specific requirements. Investment value may be different from market value because it depends on a set of investment criteria that are not necessarily typical of the market.
2. The value of an asset to the owner or a prospective owner for individual investment or operational objectives.

Lease

A contract in which rights to use and occupy land, space, or structures are transferred by the owner to another for a specified period of time in return for a specified rent.

Leased Fee Interest

The ownership interest held by the lessor, which includes the right to receive the contract rent specified in the lease plus the reversionary right when the lease expires.

Leasehold Interest

The right held by the lessee to use and occupy real estate for a stated term and under the conditions specified in the lease.

Liquidation Value

The most probable price that a specified interest in real property should bring under the following conditions:

1. Consummation of a sale within a short time period.
2. The property is subjected to market conditions prevailing as of the date of valuation.
3. Both the buyer and seller are acting prudently and knowledgeably.
4. The seller is under extreme compulsion to sell.
5. The buyer is typically motivated.
6. Both parties are acting in what they consider to be their best interests.
7. A normal marketing effort is not possible due to the brief exposure time.
8. Payment will be made in cash in U.S. dollars (or the local currency) or in terms of financial arrangements comparable thereto.
9. The price represents the normal consideration for the property sold, unaffected by special or creative financing or sales concessions granted by anyone associated with the sale.

This definition can also be modified to provide for valuation with specified financing terms.

Marketing Time

An opinion of the amount of time it might take to sell a real or personal property interest at the concluded market value level during the period immediately after the effective date of an appraisal. Marketing time differs from exposure time, which is always presumed to precede the effective date of an appraisal.

Market Value

The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller each acting prudently and knowledgeably, and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby:

- buyer and seller are typically motivated;
- both parties are well informed or well advised, and acting in what they consider their own best interests;
- a reasonable time is allowed for exposure in the open market;
- payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and
- the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions granted by anyone associated with the sale.

Prospective Opinion of Value

A value opinion effective as of a specified future date. The term does not define a type of value. Instead, it identifies a value opinion as being effective at some specific future date. An opinion of value as of a prospective date is frequently sought in connection with projects that are proposed, under construction, or under conversion to a new use, or those that have not yet achieved sellout or a stabilized level of long-term occupancy.

410

410.01 PURPOSE OF THIS DISTRICT:

- A.** The purpose of this district is to promote the development of well-planned shopping centers and independent (free-standing) commercial uses within carefully selected areas of the City of Ridgeland. The commercial activities permitted in this district include uses of a higher intensity than those first allowed in Low-Intensity Commercial districts (C-1).
- B.** It is the intent of this Ordinance that shopping centers and independent commercial uses be developed so that pedestrian and vehicular circulation is coordinated with the circulation patterns of adjacent properties in the vicinity that are also affected. In order to facilitate access between adjoining properties and to reduce the number of curb cuts onto arterial streets, the installation of a service drive shall be considered in connection with any independent commercial use (i.e., a commercial use that is not a part of a shopping center) proposed in this district.

410.02 LAND USES PERMITTED:

- A.** All commercial uses allowed in the Low-Intensity Commercial (C-1) District, subject to all C-1 district regulations.
- B.** Business-related retail and service establishments first permitted in Low-Intensity Commercial (C-1) District (no size restrictions).

- H.** Commercial healthcare facilities, such as dialysis centers, physical therapy facilities, diagnostic and imaging facilities, 24-hour medical clinics, etc.

- A. Townhouses, patio homes, and zero lot line homes subject to the regulations of the R-3 Single Family Residential District, R-4 Zero Lot Line Residential District, and R-4A Townhouse Residential District provided: that the front yard setback for these residential uses when fronting on a principal arterial or minor arterial street (according to the adopted *Thoroughfares Plan*); shall be at least 100 feet from the existing or proposed street right-of-way of such arterial streets; or that noise mitigation measures, acceptable to the Mayor and Board of Aldermen (such as berms), be installed by the developers of these residential uses.
- B. Public or quasi-public facilities and utilities in compliance with Section 32 and other regulations of this Ordinance.
- C. Other Conditional uses listed under the C-1 Low-Intensity Commercial District regulations.
- D. Buildings in excess of 48 feet or four stories.

410.04 DIMENSIONAL REQUIREMENTS:

- A. **Maximum Building Height:** 48 feet or four stories, but higher buildings may be considered as a conditional use subject to the provisions of Section 600.09. If a conditional use is granted permitting height beyond 48 feet or four stories a dimensional variance shall not be required.
- B. **Minimum Lot Area:**
 - 1. **Shopping centers:** Three (3) acres min.
 - 2. **Independent commercial uses:** No minimum lot area is required.

C. Minimum Lot Width:

1. **Shopping centers:** 300 feet.
2. **Independent commercial uses:** No minimum lot width required.

D. Lot Coverage, Maximum: 50%

E. Minimum Yards:

1. **Front yard:** 30 feet, except for townhouses or patio homes fronting on principal arterial or minor arterial streets, the front yard setback shall be 100 feet; OR if noise mitigation measures acceptable to the Mayor and Board of Aldermen are to be installed, the setback requirement may be reduced.
2. **Side yards and rear yards:** 10 feet.

Where any permitted use would adjoin any residentially zoned property, excluding multi-family residential, a 50-foot landscaped open space shall be provided between any building, parking lot or paved area and the side/rear lot line adjoining such residentially zoned property. When a dedicated right-of-way separates the side/rear lot line of a commercially zoned property and residentially zoned property, excluding multi-family residential, the 50 foot greenspace may be reduced by all or part of the right-of-way width by the Mayor and Board of Aldermen at site plan review. Where any permitted use would adjoin ANY residentially zoned property, at site plan review an appropriate fence or screen between the properties shall be presented for approval by the Mayor and Board of Aldermen.

In addition, a planting screen having a height of at least six feet shall be installed along the side/rear lot line adjoining such residentially zoned property.

SUBJECT: Proposal/Authorization for Valuation and Consulting Services
Two Tracts of Vacant Land, (1) Tracts "C" and "D" totaling 87,123 square feet;
(2) Tract "E" totaling 45,838 square feet, Harbour Pointe Drive, Ridgeland, MS
(the "Subject Property")

Dear Mr. Gupta:

Integra Realty Resources – Jackson ("IRR – Jackson") appreciates the opportunity to provide this proposal for valuation and counseling services to the undersigned (the "Client" – Rishi Enterprises, Inc.), with The City of Ridgeland being an additional intended user. The City of Ridgeland, Mississippi is an additional intended user due to the current owner of the subject property contemplating donating the subject sites (two tracts of vacant land described above) to the City of Ridgeland, Mississippi.

It is our mutual understanding that the purpose of this appraisal is to provide an opinion of the market value of the fee simple estate in the Subject Property and that the intended use of the appraisal is for tax donation purposes. The appraisal and report will be prepared in conformance with and subject to, the Code of Professional Ethics and Standards of Professional Appraisal Practice of the Appraisal Institute and the *Uniform Standards of Professional Appraisal Practice* (USPAP) developed by the Appraisal Standards Board of the Appraisal Foundation. The Ethics Rule of USPAP requires us to disclose to you any prior services we have performed regarding the Subject Property within a three year period immediately preceding the acceptance of this assignment, either as an appraiser or in any other capacity. We represent that we have not performed any services that require disclosure under this rule.

Notwithstanding the foregoing, Integra Realty Resources - Jackson may assign, without the consent of the Client, its rights and obligations under this agreement in connection with a merger or

consolidation involving Integra Realty Resources - Jackson, or in connection with a sale of substantially all of the equity or assets of Integra Realty Resources - Jackson.

In accordance with our correspondence, the scope of this assignment will require IRR – Jackson to consider all relevant and applicable approaches to value as determined during the course of our research, property analysis and preparation of the report.

Federal banking regulations require banks and other lending institutions to engage appraisers where FIRREA compliant appraisals must be used in connection with mortgage loans or other transactions involving federally regulated lending institutions. Given that requirement, this appraisal may not be accepted by a federally regulated financial institution.

The electronic appraisal will be communicated in an Appraisal Report-Standard Format. Our fee for this assignment will be \$2,000. We will require a retainer of \$1,000 prior to us beginning our work with the balance due upon delivery of the electronic report(s). The fee will be due upon delivery of the electronic report. The electronic report(s) will be completed and delivered to you within 3 (three) weeks from our receipt of this fully executed engagement letter, retainer fee and the information requested in Attachment I.

Hard copies of the report(s) are available at an additional cost. The current minimum cost for each additional hard copy is \$100 per copy.

Additional fees will be charged on an hourly basis for any work which exceeds the scope of this proposal, including performing additional valuation scenarios, additional research and conference calls or meetings with any party which exceed the time allotted for an assignment of this nature.

In order to complete this assignment in the designated time, we will require as much of the available information as possible, as identified in Attachment I, within 3 (three) business days after the execution of this engagement letter. Any delays in the receipt of this information or in the access to the property will automatically extend the final delivery date of the report(s) as proposed. Furthermore, the appraisal report and conclusions therein will be predicated upon the accuracy and completeness of the information provided by the Client and set forth in Attachment I. In the absence of some of this information, the appraisers will attempt to obtain this information from other sources and/or may require the use of Extraordinary Limiting Conditions and Assumptions within the appraisal report.

The appraisal report will be limited by our standard Assumptions and Limiting Conditions and any Extraordinary Assumptions and Limiting Conditions, which become apparent or necessary during the course of the assignment. A copy of the standard Assumptions and Limiting Conditions is set forth in Attachment II.

In addition, this engagement letter is subject to the following terms:

1. Duration of Quote. This proposal and fees quoted are valid for a period of five (5) calendar days from the date hereof.

2. Completion Date. The delivery date of the report will be 3 (three) weeks from your acceptance of this engagement letter. The foregoing delivery date is contingent upon the absence of events outside our control such as illness, lack of specific necessary data and/or Acts of God, timely access for inspection of the Subject Property, as well as our receipt of all requested information necessary to complete the assignment.
3. Information. Both parties acknowledge that real estate appraisal requires current and historical market data to competently analyze the Subject Property. Accordingly, the Client agrees that: (i) the data collected by us in this assignment will remain our property; and (ii) with respect to any data provided by the Client, Integra and its partner companies may utilize, sell and include such data (either in the aggregate or individually), in the Integra database and for use in derivative products. The Client agrees that all data already in the public domain may be utilized on an unrestricted basis. Finally, the Client agrees that we may use commercially available as well as proprietary software programs to perform your assignment (web based and others).
4. Litigation. In the event one or more Integra Parties (defined below), is called upon to provide testimony or receives a subpoena concerning any suit or proceeding or otherwise becomes involved in any litigation relating to, in which the Integra Party is not a party, the Integra Parties will make every reasonable effort to assist Client and provide such testimony. Client agrees to compensate the Integra Parties at their then current rates, on an hourly basis, plus reimbursement for all expenses incurred as a result of said litigation. In addition to the foregoing, the following terms are applicable:
 - Review and trial preparation (if applicable) in-office, will be billed at standard hourly rates; outside office rates may apply to conferences, depositions and testimony.
 - All reports for which testimony is required must be disclosed prior to report authorization.
 - All fees for reports, conferences and depositions must be paid prior to hearings and trial.
 - Scheduling of casework and appearances will be made with due consideration for the time of all persons involved. Every effort to comply with reasonable requests for appearances will be made. Once an appointment, deposition or appearance is scheduled, that time is set aside. Therefore, if the appearance is canceled, or the reserved time is abandoned for whatever reason, the following cancellation charges will apply:

1. More than one week	No Charge
2. 48 hours prior	[\$250.00]
3. Less than 48 hours prior	[\$600.00]
4. Stand-by Charge	[\$250.00 per day]
 - Due to the difficulty associated with accurately forecasting the number of hours which may be required for the research, hearing and/or trial preparation, deposition time, client/expert conferences, etc., the Integra Parties will maintain contemporaneous time and expense records and will provide Client with invoices on a 30 day billing cycle. Client agrees to pay the Integra Parties at the time the invoice is submitted and further agrees that such payment is not contingent upon any set outcome or result of such litigation.

IRR - Jackson expressly reserves the unrestricted right to withhold its consent to your disclosure of the appraisal report (or any part thereof including, without limitation, conclusions of value and our identity), to any third parties. Stated again for clarification, unless the prior written consent of IRR - Jackson is obtained, no third party other than the additional intended users may rely on the appraisal report (even if their reliance was foreseeable). The Client agrees and acknowledges it is solely responsible in paying for the services of said special expert. Any action commenced for the purpose of enforcing the terms and provisions of this engagement letter or any accepted assignment and in any way related to the subject matter of this engagement letter shall be brought in the state in which IRR - Jackson is located. STANDARD ASSUMPTIONS & LIMITING CONDITIONS

The appraisal report and any work product related to the engagement will be limited by the following standard assumptions:

1. The title is marketable and free and clear of all liens, encumbrances, encroachments, easements and restrictions. The Subject Property is under responsible ownership and competent management and is available for its highest and best use.
2. There are no existing judgments or pending or threatened litigation that could affect the value of the Subject Property.
3. There are no hidden or undisclosed conditions of the land or of the improvements that would render the Subject Property more or less valuable. Furthermore, there is no asbestos in the Subject Property.
4. The revenue stamps placed on any deed referenced herein to indicate the sale price are in correct relation to the actual dollar amount of the transaction.
5. The Subject Property is in compliance with all applicable building, environmental, zoning, and other federal, state and local laws, regulations and codes.
6. The information furnished by others is believed to be reliable, but no warranty is given for its accuracy.

The appraisal report and any work product related to the engagement will be subject to the following limiting conditions, except as otherwise noted in the report:

1. An appraisal is inherently subjective and represents our opinion as to the value of the Subject Property appraised.
2. The conclusions stated in our appraisal apply only as of the effective date of the appraisal, and no representation is made as to the effect of subsequent events.
3. No changes in any federal, state or local laws, regulations or codes (including, without limitation, the Internal Revenue Code) are anticipated.
4. No environmental impact studies were either requested or made in conjunction with this appraisal, and we reserve the right to revise or rescind any of the value opinions based upon any subsequent environmental impact studies. If any environmental impact statement is required by law, the appraisal assumes that such statement will be favorable and will be approved by the appropriate regulatory bodies.
5. Unless otherwise agreed to in writing, we are not required to give testimony, respond to any subpoena or attend any court, governmental or other hearing with reference to the Subject Property without compensation relative to such additional employment.
6. We have made no survey of the Subject Property and assume no responsibility in connection with such matters. Any sketch or survey of the Subject Property included in this report is for illustrative purposes only and should not be considered to be scaled accurately for size. The

appraisal covers the Subject Property as described in this report, and the areas and dimensions set forth are assumed to be correct.

7. No opinion is expressed as to the value of subsurface oil, gas or mineral rights, if any, and we have assumed that the Subject Property is not subject to surface entry for the exploration or removal of such materials, unless otherwise noted in our appraisal.
8. We accept no responsibility for considerations requiring expertise in other fields. Such considerations include, but are not limited to, legal descriptions and other legal matters such as legal title, geologic considerations, such as soils and seismic stability, and civil, mechanical, electrical, structural and other engineering and environmental matters. Such considerations may also include determinations of compliance with zoning and other federal, state, and local laws, regulations and codes.
9. The distribution of the total valuation in the report between land and improvements applies only under the reported highest and best use of the Subject Property. The allocations of value for land and improvements must not be used in conjunction with any other appraisal and are invalid if so used. The appraisal report shall be considered only in its entirety. No part of the appraisal report shall be utilized separately or out of context.
10. Neither all nor any part of the contents of this report (especially any conclusions as to value, the identity of the appraisers, or any reference to the Appraisal Institute) shall be disseminated through advertising media, public relations media, news media or any other means of communication (including without limitation prospectuses, private offering memoranda and other offering material provided to prospective investors) without the prior written consent of the persons signing the report.
11. Information, estimates and opinions contained in the report and obtained from third-party sources are assumed to be reliable and have not been independently verified.
12. Any income and expense estimates contained in the appraisal report are used only for the purpose of estimating value and do not constitute predictions of future operating results.
13. If the Subject Property is subject to one or more leases, any estimate of residual value contained in the appraisal may be particularly affected by significant changes in the condition of the economy, of the real estate industry, or of the Subject Property at the time these leases expire or otherwise terminate.
14. Unless otherwise stated in the report, no consideration has been given to personal property located on the Subject Property or to the cost of moving or relocating such personal property; only the real property has been considered.
15. The current purchasing power of the dollar is the basis for the value stated in the appraisal; we have assumed that no extreme fluctuations in economic cycles will occur.
16. The values found herein are subject to these and to any other assumptions or conditions set forth in the body of this report but which may have been omitted from this list of Assumptions and Limiting Conditions.
17. The analyses contained in the report necessarily incorporate numerous estimates and assumptions regarding property performance, general and local business and economic

conditions, the absence of material changes in the competitive environment and other matters. Some estimates or assumptions, however, inevitably will not materialize, and unanticipated events and circumstances may occur; therefore, actual results achieved during the period covered by our analysis will vary from our estimates, and the variations may be material.

18. The *Americans with Disabilities Act (ADA)* became effective January 26, 1992. We have not made a specific survey or analysis of the Subject Property to determine whether the physical aspects of the improvements meet the *ADA* accessibility guidelines. We claim no expertise in *ADA* issues, and render no opinion regarding compliance of the Subject Property with *ADA* regulations. Inasmuch as compliance matches each owner's financial ability with the cost to cure the non-conforming physical characteristics of a property, a specific study of both the owner's financial ability and the cost to cure any deficiencies would be needed for the Department of Justice to determine compliance.
19. The appraisal report is prepared for the exclusive benefit of you, your subsidiaries and/or affiliates. It may not be used or relied upon by any other party. All parties who use or rely upon any information in the report without our written consent do so at their own risk.
20. No studies have been provided to us indicating the presence or absence of hazardous materials on the Subject Property or in the improvements, and our valuation is predicated upon the assumption that the Subject Property is free and clear of any environment hazards including, without limitation, hazardous wastes, toxic substances and mold. No representations or warranties are made regarding the environmental condition of the Subject Property. IRR – Jackson and/or any of its officers, owners, managers, directors, agents, subcontractors or employees (the "Integra Parties") shall not be responsible for any such environmental conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because we are not experts in the field of environmental conditions, the appraisal report cannot be considered as an environmental assessment of the Subject Property.
21. The persons signing the report may have reviewed available flood maps and may have noted in the appraisal report whether the Subject Property is located in an identified Special Flood Hazard Area. However, we are not qualified to detect such areas and therefore do not guarantee such determinations. The presence of flood plain areas and/or wetlands may affect the value of the Subject Property, and the value conclusion is predicated on the assumption that wetlands are non-existent or minimal.
22. We are not a building or environmental inspector. The Integra Parties do not guarantee that the Subject Property is free of defects or environmental problems. Mold may be present in the Subject Property and a professional inspection is recommended.
23. The appraisal report and value conclusions for an appraisal assume the satisfactory completion of construction, repairs or alterations in a workmanlike manner.
24. **IRR – Jackson is an independently owned and operated company. The parties hereto agree that Integra Realty Resources, Inc. ("Integra") shall not be liable for any claim arising out of or relating to any appraisal report or any information or opinions contained therein as such appraisal report is the sole and exclusive responsibility of IRR – Jackson. In addition, it is**

expressly agreed that in any action which may be brought against the Integra Parties arising out of, relating to, or in any way pertaining to the engagement letter, the appraisal reports or any related work product, the Integra Parties shall not be responsible or liable for any incidental or consequential damages or losses, unless the appraisal was fraudulent or prepared with intentional misconduct. It is further expressly agreed that the collective liability of the Integra Parties in any such action shall not exceed the fees paid for the preparation of the assignment (unless the appraisal was fraudulent or prepared with intentional misconduct). It is expressly agreed that the fees charged herein are in reliance upon the foregoing limitations of liability.

25. IRR – Jackson is an independently owned and operated company, which has prepared the appraisal for the specific intended use stated elsewhere in the report. The use of the appraisal report by anyone other than the Client is prohibited except as otherwise provided. Accordingly, the appraisal report is addressed to and shall be solely for the Client's use and benefit unless we provide our prior written consent. We expressly reserve the unrestricted right to withhold our consent to your disclosure of the appraisal report or any other work product related to the engagement (or any part thereof including, without limitation, conclusions of value and our identity), to any third parties. Stated again for clarification, unless our prior written consent is obtained, no third party may rely on the appraisal report (even if their reliance was foreseeable).
26. The conclusions of this report are estimates based on known current trends and reasonably foreseeable future occurrences. These estimates are based partly on property information, data obtained in public records, interviews, existing trends, buyer-seller decision criteria in the current market, and research conducted by third parties, and such data are not always completely reliable. The Integra Parties are not responsible for these and other future occurrences that could not have reasonably been foreseen on the effective date of this assignment. Furthermore, it is inevitable that some assumptions will not materialize and that unanticipated events may occur that will likely affect actual performance. While we are of the opinion that our findings are reasonable based on current market conditions, we do not represent that these estimates will actually be achieved, as they are subject to considerable risk and uncertainty. Moreover, we assume competent and effective management and marketing for the duration of the projected holding period of the Subject Property.
27. All prospective value opinions presented in this report are estimates and forecasts which are prospective in nature and are subject to considerable risk and uncertainty. In addition to the contingencies noted in the preceding paragraph, several events may occur that could substantially alter the outcome of our estimates such as, but not limited to changes in the economy, interest rates, capitalization rates, behavior of consumers, investors and lenders, fire and other physical destruction, changes in title or conveyances of easements and deed restrictions, etc. It is assumed that conditions reasonably foreseeable at the present time are consistent or similar with the future.

As will be determined during the course of the assignment, additional extraordinary or hypothetical conditions may be required in order to complete the assignment. The appraisal shall also be subject to those assumptions.

13. A site plan for development of the property as required by Section 600.09 of the Zoning Ordinance is attached as Exhibit "E". See attached survey.

14. Petitioner acknowledges that in order to assure consideration of the request contained in this Petition, Petitioner must present proof as to all matters required to be proved by Section 600.09 of the Zoning Ordinance. Petitioner must answer the following questions before filing this petition. The petition will not be accepted unless petitioner responds to each of the following questions:

a. Why does the Petitioner claim that the requested land use fits the site and is compatible with adjacent properties?

There is an exiting multi-tenant building on the property, and another salon has already been operating

on the property for approximately 10 years (since around 2011). The proposed use is consistent with

the other uses in the building (salon, surveyor, security company) as well as the nearby uses.

There will be no noticeable impact on the traffic on adjacent streets and highways.

- c. Will the requested land use cause an adverse effect (noise, glare, odor, traffic, use, encroachment, etc.) on abutting property or the permitted use thereof? Please explain.

No. The use is a small salon inside a suite in an existing building.

- d. What provision(s) have been made for ingress and egress to the subject property and structures located thereon with particular reference to automobile and pedestrian safety, traffic flow, and fire protection?

The property has been fully developed for approximately 10 years. No changes to ingress or egress are planned.

The refuse will be bagged and placed in cans by the street like it has been for years.

- g. What provision(s) have been made for controlling drainage and erosion on/from the proposed site?

The property has been fully developed for approximately 10 years. No changes to the drainage or

erosion control are planned in connection with the use.

- h. What provision(s) have been made for the availability and connection of utilities?

The suite is already served by all necessary utilities, including water/sewer, electricity, and gas.

- i. What provisions(s) have been made for signage and lighting at the proposed site?

All existing building lighting will remain in place. Signage for the proposed business will

be permitted separately.

- j. Does the proposed land use comply with required yards, Landscape Ordinance, and Tree Ordinance? If not, please explain.

Yes

- k. What provision(s) have been made with respect to hours of operation so as not to cause an adverse effect on neighboring properties?

The hours of operation of the business are:

Tuesday - Friday: 9:00AM - 6:00PM

Saturday: 9:00AM - 2:00PM

Sunday: Closed

Hours will not have an adverse effect on neighboring properties.

1. What provision(s) have been made to adequately address any concern for safety?

All exterior doors have functioning locks.

- m. What provision(s) have been made to address any negative impact on the capacity of public facilities?

N/A - No new negative impact on the capacity of public facilities is anticipated.

- n. What provision(s) have been made to minimize negative environmental and economic impacts?

N/A - No new environmental or economic impacts are anticipated.

- o. Does the proposed land use encroach upon flood hazard zones or airport approach zones?

No

- p. Are there any additional issues that should be addressed in this application?

This is not a new development, but a suite inside a building on a property that has been developed -

and in use by multiple tenants - for approximately 10 years. A lot of the questions/issues on the

form application do not seem to be applicable.

15. Petitioner acknowledges that prior to approving any petition, a public hearing must be held in accordance with Section 600.15 of the Zoning Ordinance. At the public hearing the petitioner will be required to provide proof in the form of testimony and documents as to each of the matters listed in paragraph 14 of this petition.

16. Petitioner believes that the reasons set forth in this petition justify the granting of the conditional use permit.

17. Petitioner would show that the planned use of the property and the conditional use permit would be in harmony with the general purpose and intent of the land uses permitted in the use district where the property is located, and would not be injurious to the neighborhood or detrimental to the public welfare.

18. The required \$150.00 filing fee has been paid with the filing of this Petition.

Respectfully submitted,

EROSION CONTROL NOTES:

1. THE CONTROLS SHOWN ON THIS PLAN SHALL BE CONSIDERED MINIMUM RECOMMENDATIONS REQUIRED AND THE CONTRACTOR SHALL PROVIDE ANY ADDITIONAL EROSION & SEDIMENTATION CONTROL AS NECESSARY.
2. EROSION CONTROL IS SUBJECT TO CONTRACTOR PROJECT PHASING, SCHEDULING, AND OTHER CONDITIONS THAT ONLY THE CONTRACTOR CAN CONTROL. THEREFORE THE CONTRACTOR IS RESPONSIBLE FOR ALL EROSION & SEDIMENTATION CONTROL MEANS, RECORD KEEPING, AND COMPLIANCE.
3. BEST MANAGEMENT PRACTICES SUCH AS TEMPORARY DIVERSION DITCHES, SEDIMENT BASINS, AND BERMS MAY OR MAY NOT BE SHOWN ON THIS PLAN FOR CLARITY PURPOSES. THE LOCATION AND NUMBER OF SUCH MAY VARY DEPENDING ON THE CONTRACTOR'S PHASING OF THE PROJECT. THE CONTRACTOR MUST COORDINATE WITH THE ENGINEER, OWNER, AND MDEQ TO EFFECTIVELY CONTROL SEDIMENT RUNOFF DURING CONSTRUCTION.
4. ALL VEGETATED AREAS SHALL BE ALIVE AND "GREEN" PRIOR TO FINAL ACCEPTANCE.
5. ALL DISTURBED AREAS SHALL BE PERMANENTLY SEEDED/AND OR SOODED, FERTILIZED, AND MULCHED.
6. TEMPORARY SEEDING MAY BE REQUIRED IN ADDITION TO PERMANENT SEEDING NOTED ON THIS PLAN TO ASSIST IN COMPLYING WITH THE CONSTRUCTION GENERAL PERMIT. SUCH ADDITIONAL SEED SHALL BE CONSIDERED INCIDENTAL, THEREFORE NO ADDITIONAL PAYMENT WILL BE MADE.
7. THE CONTRACTOR SHALL SUBMIT PHASED EROSION CONTROL PLANS TO THE ENGINEER AND OWNER FOR REVIEW IF NEEDED TO CONTROL SEDIMENT AND EROSION DURING CONSTRUCTION.

2. The term "residential purposes" as used herein shall be held and construed to exclude, among other things, hospitals, duplex houses, apartment houses, garage apartments, or any outbuilding which is not of similar construction and appearance as the residence dwelling, and to exclude commercial and professional use, except an office in the home, and these covenants do hereby expressly prohibit such usage. No alteration in the exterior appearance of any building or structure shall be made without like approval from the Declarant or its assigns.

6. RE: Document Preparation and Consulting Services
Baseball Core Area Safety Net
Design/ Build Proposal/ Contract
Freedom Ridge Park
PLM pn 2102

Dear Mr. North,

Thank you for the opportunity to talk by telephone with you and Alan Hart earlier this week. We sincerely appreciate the selection of our firm to work with you to prepare documents for the City of Ridgeland (hereinafter referred to as City) to acquire proposals for the above referenced project at Freedom Ridge Park in Ridgeland.

As we discussed, the professional services we will be providing you will be the development of documents which the City will use to solicit Design/ Bid proposals for the above referenced project. As discussed, these will include:

- A. Plans: Drawings/ photos to effectively show the area of work/ limits of where the improvements are required. We will acknowledge in the Scope of Work the Contractor's responsibility for accurate measurements and inventory of elements within the area of work. Additionally, we will direct the Contractor to utilize the City's existing As-Built drawings from the Freedom Ridge Construction Project.
- B. Specifications: These will include the instructions to Proposers, a typical contract to be prepared by the City after accepting a proposal, and basic general requirements that the City will desire of the Contractor while work is underway. Again, this will be a proposal for the "end result;" therefore, technical specifications will not be prepared. Specifics of component materials will be identified in the Scope of Work. If available, we will reference the City's copy of the Geotech Report prepared for the construction project noted above.
- C. Scope of Work: We will receive from City representatives material and workmanship goals of the Proposers from which we will prepare a summary Scope of Work checklist for Proposers to utilize to prepare their proposals. Our scope does not include research and selection of materials; however, we will advise if we have questions or comments regarding materials and methods which may impact Proposers' work and/ or could affect pricing in their proposals.
- D. Following receipt of Proposals, we will meet with City representatives to both review submitted documents and determine which proposal is in the best interest of the City.

We propose to provide the professional services required to prepare the documents noted above and to provide consultation for a lump sum fee of \$9,000.00. Should additional services over and above those noted above are required in the City's opinion, our fees for professional services shall be charged at hourly rates based upon the following schedule:

PRINCIPAL DESIGNER/ ADMINISTRATOR	\$125.00
PROJECT LANDSCAPE ARCHITECT	\$ 55.00

Charges for printing and graphic reproduction services performed outside of this office will be billed at direct cost plus 15%.

Billings will be presented monthly. Payment is due upon receipt of billing. Unpaid bills will accrue interest after 30 days at the rate of Prime Rate plus 2% from the date of receipt. Should bill collection by an attorney or other party be required, the City will be responsible for reimbursement of all fees reasonably incurred to facilitate the collection.

Either party may terminate this agreement at any time by written notice, however, the City will be responsible for all charges prior to the date of our receipt/ issuance of written notice of termination.

The City will also be responsible for providing access to As-Built Drawings and Geotechnical Report data from the Freedom Ridge Phase 2 construction project for this office and Proposers.

Preparation of a Cost Estimate, or opinions of probable construction costs, are not part of this scope of work. We cannot, and do not, make any warranty, express or implied, that the bids or the negotiated cost of the work will not vary from the City's earlier estimated budget cost.

This letter agreement will also confirm that our services under this Agreement do not include project observation or review of the Contractor's performance or any other construction phase services. Accordingly, the City assumes all responsibility for interpretation of the Contract Documents and for construction observation and waives any claims against us that may be in any way connected thereto. In addition, the City agrees, to the fullest extent permitted by law, to indemnify and hold us harmless against all damages, liabilities or costs, including reasonable attorney's fees and defense costs arising out of or in any way connected with the performance of such services by other persons or entities and from any and all claims arising from modifications, clarifications, interpretations, adjustments or changes made to the Documents to reflect changed field or other conditions, except for claims arising from our negligence or willful misconduct.

Our goal is to work closely with you to prepare documents which reflect the City's wishes and desires and works well with the given site constraints. If this agreement is acceptable, please sign the enclosed copy where indicated and return it to us. Following receipt of this signed agreement, we will begin work and will be in touch with you to schedule our first review within one week from the date received.

Once again, thank you for this opportunity. We sincerely look forward to the successful completion of your project. If you should have any questions, please do give me a call.

Sincerely,

MEMORANDUM

TO: Mayor Gene F. McGee and Board of Aldermen

FROM: Christopher W. Bryson, P.E., City Engineer 

DATE: August 31, 2021

RE: **CONTRACTOR FINAL CHANGE ORDER NO. 1**
CONTRACTOR FINAL PAY ESTIMATE NO. 5
& MDOT FINAL ESTIMATE PACKAGE
Lewis Electric, Inc. - Pay Period Ending May 1 – July 2, 2021
Highland Colony Parkway-Renaissance Driveways Traffic Signal Improvements
STP-7354-00(005) LPA / 108011-701000
City of Ridgeland, Madison County, Mississippi

We respectfully request the Mayor and Board of Aldermen approve the attached Final Change Order No. 1, Final Contractor Pay Estimate No. 5, and MDOT Final Estimate Package for the subject construction contract with Lewis Electric, Inc. The Contractor has satisfied the requirements of the Contract Specifications, and is therefore eligible to receive final payment. This project was considered substantially complete on July 2, 2021.

The proposed Final Contract Change Order No. 1 decreases the Total Contract Amount by \$3,651.40 (less than 1%). This decrease is a result of quantity underruns associated with adjustments made to the Contract quantities to reflect the actual amount used during construction. Upon approval, the Mayor will need to sign all three (3) copies of Final Contract Change Order No. 1, and return to the Public Works Department for distribution.

The proposed Final Pay Estimate No. 5 requests payment in the amount of \$60,391.60 to Lewis Electric, Inc. for work completed on the referenced project during the period between May 1, 2021 and July 2, 2021. The quantities included in this final pay estimate have been approved by MDOT. 100% of this payment will be reimbursed with federal funds.

Upon your approval, the Mayor will need to sign in the spaces indicated as our LPA Official. The executed Final Estimate Package will be submitted to the MDOT LPA Division for MDOT Final Acceptance.

Thank you for your consideration of our request. Please contact me if you have any questions.

MEMORANDUM

TO: The Mayor and Board of Aldermen

FROM: Christopher W. Bryson, P.E., City Engineer 

DATE: August 31, 2021

RE: **Authorization to Advertise for Bids**
City of Ridgeland Traffic Signal Equipment Safety Improvements
STP-0213-00(035) LPA-108013-701000
City of Ridgeland, Madison County, Mississippi

We respectfully request the Mayor and Board of Aldermen authorize the Public Works Department to advertise for bids on the above referenced project upon receiving written authorization to advertise from the Federal Highway Administration and the Mississippi Department of Transportation. The PS&E assembly for the subject project was submitted to MDOT along with a request for authority to advertise for bids on August 31, 2021.

This project will replace existing traffic signal equipment such as controllers, conflict monitors, network switches, emergency vehicle preemption equipment, and vehicle detection equipment. This project also includes installation of new un-interruptible power supply (UPS) systems and installation of new traffic signal monitoring systems. The traffic signal systems provided in this project provide the ability to immediately identify and remedy failures and inefficiencies within our traffic signal network. The project's proposed preemption system will improve emergency response times through GPS-based preemption of the traffic signals along an emergency vehicle's route in advance of arrival. This proposed preemption system also features a connected vehicle application which communicates real-time traffic information to vehicles, cyclists, and pedestrians.

The project's total estimated cost is \$951,160.00 which provides for 100% federally funded improvements at 29 different traffic signals within the City. The project's bid schedule is divided into a Base Bid and Additive Alternate group of pay items so the bids do not exceed the Federal funds. The MDOT requires us to include a 5% materials testing allowance, and a 5% construction contingency allowance on the official PS&E Assembly estimate even though the pay items do not require testing and we will not award a contract that exceeds the project's Federal funds. There are \$954,000.00 in Federal Funds allocated for this project which are eligible to be used at a 100% Federal Share; however, the City of Ridgeland is responsible for providing funding for any construction costs that exceed this Federal award amount.

Thank you for your consideration of our request. Please contact me if you have any questions.

Application Instructions

- 1). You must present to the Chief of Police or his designee your plan for parking and traffic control. You must state in this plan whether or not police or private security personnel will be needed to direct and handle traffic and parking.
- 2). City of Ridgeland Special Events Ordinance section 10-33(2) requires adequate security be provided at special events. This requirement is one security officer for every 400 people in attendance. A private security company may be used but preference shall be given to the hiring of off duty personnel. The assistance from Ridgeland Police Department for road course races/walks to secure intersections shall not be considered as part of the security requirement. The personnel assigned for traffic control are in addition to any requirement for on-site security personnel required in the ordinance.
- 3). If the event is to have outdoor music, a Permit to Play on Premises Music will be required from the applicant agreeing to comply with the noise ordinance of the City of Ridgeland, MS.
- 4). If there is a need for Police Dept., Fire Dept., Public Works Dept. and/or Rec/Parks Dept. personnel to work in controlling the special event, the applicant will agree to pay this cost from the filing of a bond fee.
- 5). The applicant may be required to post a bond fee in the minimum amount of one thousand dollars (\$1,000.00) with the City Clerk. This is to ensure that the event area is immediately cleaned up after its conclusion, and any City employee who works overtime as a result of the special event, will be compensated from the bond proceeds.
- 6). Submit the above application and information to the Office of the Chief of Police with a non-refundable filing fee of one hundred dollars (\$100.00) along with the above referenced bond fee. This application will be forwarded to the Patrol Division Commander or a designee who will review the application for all required documentation. This application and documentation will be presented to the Ridgeland Board of Aldermen for subsequent approval. **Please allow a minimum of 30 days to complete the process and receive approval.**

- 7). Event organizers should submit a map outlining the area where an event is to be held. Points of interest (entrance/exit points, first aid stations, etc...) shall be included on this map. If the event is a road race/walk, a map reflecting the proposed course route along with a description of the route shall be included. If any portion of the route will include sections of the Natchez Trace Parkway, you must first obtain approval from the Natchez Trace Chief (phone no. 662-680-4014; Ridgeland office 601-856-7321) and documentation reflecting this approval must be submitted with this application.
- 8). If the event is to be held at Old Trace Park and/or Madison Landing, you must first seek approval from PRVWSD Parks and Recreation (601-856-6319) and obtain a Facility Use Application which must be submitted with this application.
- 9). The number of event personnel will represent the number of people from the organization who will be assisting with the overall operation of the event. This will include any volunteers from the organization.
- 10). The arrangements for restroom facilities as addressed in the Ridgeland Code of Ordinances indicate 1 restroom per 150 people in attendance. These may be portable restrooms or existing restroom structures.
- 11). The event organizer or organization will be responsible for clean-up at the conclusion of the event. The City of Ridgeland encourages organizations to participate in a recycle program for any waste or debris to be discarded.
- 12). The first aid station located on the event site shall be manned by a state certified EMT.
- 13). The number of police/security personnel shall be determined by the expected crowd size. The event organizer may staff the event to satisfy this requirement through off-duty law enforcement personnel. The Ridgeland Police Department will assist the organizers if they choose the police department assigned option, or the event organizers may choose the self-hire option to select their own personnel to comply with the ordinance.
- 14). In accordance with City of Ridgeland Mobile Food Vending Ordinance (Chapter 22, Article V), any special event organizer who utilizes the services of a mobile food truck or pushcart must comply with the requirements under this above referenced section. If you utilize the services of a mobile food vendor, the applicant named on this permit will ensure the requirements under section 22-203 (b) are met and obtain a Special Event Mobile Food Vending Permit from the City of Ridgeland Department of Finance and Administration.

MEETING OF THE
COMMUNITY AWARENESS COMMITTEE
CITY OF RIDGELAND, MISSISSIPPI

July 28, 2021

5:30 P.M.

Chairman Shelia Jackson opened the meeting of the Community Awareness Committee to order. Present were Vicki Heath, Lazaire Bradley Martin, Shirley Gill, Carla Palmer-Allen, Adams Yerger, Lynda Assink, Diane Jackson, Drew Malone, Debbie Upchurch, and Mary Beth McCullough.

The Committee was provided a copy of the minutes from the June 28, 2021 meeting.

Next came discussion of the school board by Shelia Jackson and Lazaire Bradley Martin. Lazaire emailed the committee a copy of the July 12, 2021 agenda of the Madison County Board of Education meeting. The agenda is attached to the minutes as Exhibit A.

In addition, Lazaire gave a report on the school's accountability scores. Accountability scores provide rankings for each school. The scores have not yet been made public.

In addition, it was reported that free lunches will be provided to all students throughout the 2021-2022 school year.

In addition, it was reported that the next school board meeting will be held at Ann Smith Elementary on August 2. A ribbon cutting will be held to open the new wing of the school and the board meeting will follow the ribbon cutting.

Next came discussion by Drew Malone. Drew reported that construction has been stalled for the new food truck area, but he is unsure of the reason.

Next came discussion by Lynda Assink. Lynda reported that close to 5,000 people attended the Annual Balloon Glow at Northpark.

In addition, flag football registration is ongoing.

In addition, Lynda reported that the Mini Hawk camps were a great success.

Next came discussion Debbie Upchurch. Debbie reported that a few Ridgeland churches provided food and volunteered at local schools during their summer school programs.

In addition, Ann Smith is looking for volunteers to assist with carpool. The school has reached out to local churches to see if they could offer assistance. Shelia said she would relay this information the PTO board to see if the seniors at RHS could help with carpool.

In addition, St. Columb's Episcopal Church and FBC, Ridgeland are still doing the food pantry, and both churches gathered 150 backpacks full of supplies for local students.

Next came discussion by Diane Jackson. She reported that the Chamber has many ribbon cuttings scheduled, and Walk-On's is having a soft opening August 6.

In addition, Firefighter Appreciation Week was discussed, and it will possibly be set in October.

Shelia Jackson asked Mary Beth McCullough to speak with Alan Hart to see if another windshield study is needed.

Next came discussion by Carla Palmer-Allen. Compared to last month, there are 28 active listings in the over \$300k range. Ten of those homes are listed at over a million. For homes under \$300k, 9 homes have been listed and 13 homes have closed since last month. Average time on the market for a listed home is 6 days. Average time for pending is 10 days. Currently, 24 homes are pending closure. Interest rates have been between 2.5-3.5 percent. Overall, the market is doing very well.

Next came discussion by Adams Yerger. Adams inquired about the multi-use trails/sidewalks along Steed Rd.

There being no further business before the Community Awareness Committee, the Chairman adjourned the meeting at 6:11 p.m.
