The Mayor reopened the meeting and City Attorney John Scanlon announced that there was no action taken by the Board of Aldermen during the Executive Session and read the following statement into the record:

"The City of Ridgeland has had a long and generous relationship with the Madison County library system, making contributions - including providing the building in which the current Ridgeland branch of the library is housed, building maintenance, payment of utilities, and direct contributions of cash. The Mayor and Board of Aldermen included within its current year budget for library purposes a $110,000.00 allocation. This allocation may only be disbursed by order of the Board of Aldermen. No part of this allocation has been disbursed for the current budget year, nor is any allocation due from the City under the Agreement purportedly between the City and the library system on which the library relies. The City of Ridgeland has for years enjoyed a harmonious relationship with the governing body of the library system. The Governing Authorities of the City of Ridgeland desire to rebuild and reestablish the harmonious relationship it once had with the governing body of the library system, all for the ultimate benefit of the citizens of the City of Ridgeland. It was discovered in a review of this matter by the City of Ridgeland's legal advisors that there is currently no legally enforceable agreement between the library and the City. It is the City's intention to fulfill all its obligations and not wrongfully withhold any funds. It is the desire of the City of Ridgeland that a clear and unambiguous agreement between all parties be reached and properly spread on the minutes of all parties - the City, the Madison County Board of Supervisors, and the Madison County Library System. The City is currently in communication with the Library Board's attorney to pursue a legally enforceable agreement."

There being no further business before the Board of Aldermen, the Mayor adjourned the meeting at 7:30 p.m.

before filing this petition. The petition will not be accepted unless petitioner responds to each of the following questions:

a. Why does the Petitioner claim that the requested land use fits the site and is compatible with adjacent properties?

The site is a portion of a luxury retail shopping center. The shopping center includes retail space, office space, restaurants and entertainment businesses including a cinema. The site includes retail space, office space and restaurants. Adding a residential component will complete the mixed-use nature of the project consistent with the growing national trend of live, work, dine and play projects with walkable features. The adjacent property is comprised of the shopping center. The properties adjacent to the shopping center are offices, schools, the Natchez Trace Parkway and I-55. The residential dwelling units are compatible with the adjacent properties as the units will provide residences for employees of the businesses within a reasonable walking distance. As evidence of the compatible nature of the residential component, the Petitioner submits that similar projects have been developed in numerous other cities, such as Avalon in Alpharetta, GA and Encore MidCity in Huntsville, AL.

b. How will the proposed use impact traffic on adjacent streets and highways?

The limited number of residential dwelling units will have a minimal impact on the adjacent streets and highways that are designed as major thoroughfares and will have less impact on streets and highways than the previously proposed use of the space for offices.

c. Will the requested land use cause an adverse effect (noise, glare, odor, traffic, use, encroachment, etc.) on abutting property or the permitted use thereof? Please explain.

No. Since the residential dwelling units will be constructed inside existing structures with no external modifications, there will be no adverse effect as to noise, odor, glare or encroachment on abutting properties or uses. Also, the major use of the residential dwelling units will be before and after school and office hours. Therefore, there will be no adverse effect as to noise, odor, use or other adverse effect on abutting properties or uses and only minimal, if any, adverse effect on traffic.

d. What provision(s) have been made for ingress and egress to the subject property and structures located thereon with particular reference to automobile and pedestrian safety, traffic flow, and fire protection?

The existing ingress and egress to the property and the structures is adequate for automobile and pedestrian safety, traffic flow, and fire protection for the existing uses, and no changes will be made to those features. The addition of the limited

number of residential dwelling units will have no adverse effect on automobile and pedestrian safety, traffic flow and fire protection.

e. What provision(s) have been made to provide adequate off-street parking and loading areas in conformance with Section 37.02 Off-Street Parking of this Ordinance?

The property does not contain any off-street parking, but the businesses on the property and the occupants of the proposed residential dwelling units will have the right to park in the parking lots of the shopping center. The shopping center complies with the parking requirements per the variance granted by the City and has substantial excess off-street parking. The addition of the limited number of residential dwelling units that will impose the heaviest use of parking in hours before and after the hours of operation of the shopping center will not impose a material burden on the off-street parking.

f. What provision(s) have been made for refuse storage areas and service areas to be screened from adjoining properties, and are the proposed improvements in conformance with Section 36.07 and Appendix 'D'?

The property contains a refuse storage areas or service areas. Businesses on the property and the occupants of the proposed residential dwelling units will have the right to use the refuse storage area. No new refuse storage areas and service areas

will be constructed. All existing refuse storage areas and service areas on the shopping center are screened from adjoining properties and conform to Section 36.07 and Appendix 'D'. No exterior improvements will be constructed, so there will be no effect on the conformance of the current improvements with Section 36.07 and Appendix D.

g. What provision(s) have been made for controlling drainage and erosion on/from the proposed site?

No changes will be made to existing drainage and erosion control. No exterior improvements will be constructed, so there will be no effect on existing drainage and erosion control.

h. What provision(s) have been made for the availability and connection of utilities?

The existing utility services for the shopping center have sufficient capacity and will be extended to the residential dwelling units.

i. What provisions(s) have been made for signage and lighting at the proposed site?

No changes will be made to existing signage and lighting. No new signage or lighting will be constructed.

j. Does the proposed land use comply with required yards, Landscape Ordinance, and Tree Ordinance? If not, please explain.

No new structures, landscaping or trees will be constructed or installed. The existing yards, landscaping and trees conform to the City's ordinances. No exterior improvements will be constructed, so there will be no effect on the conformance of the current yards, landscaping and trees with the City's ordinances.

k. What provision(s) have been made with respect to hours of operation so as not to cause an adverse effect on neighboring properties?

Residential dwelling units will be a 24/7 operation, but the heaviest use of the units will be before and after the hours of operation of neighboring properties.

l. What provision(s) have been made to adequately address any concern for safety?

The existing shopping center has a system of cameras and emergency call boxes and security patrols.

m. What provision(s) have been made to address any negative impact on the capacity of public facilities?

There will no negative impact on the capacity of public facilities as the increased use of public facilities from a limited number of residential dwelling units will be minimal.

n. What provision(s) have been made to minimize negative environmental and economic impacts?

No new structures, landscaping or trees will be constructed or installed. No exterior improvements will be constructed, so there will be no environmental impact. Adding residences within walking distance of businesses will have a positive environmental impact. Any economic impact from the addition of residential units will be positive.

o. Does the proposed land use encroach upon flood hazard zones or airport approach zones?

No.

p. Are there any additional issues that should be addressed in this application?

There are no known adverse issues.

15. Petitioner acknowledges that prior to approving any petition, a public hearing must be held in accordance with Section 600.15 of the Zoning Ordinance. At the public hearing the petitioner will be required to provide proof in the form of testimony and documents as to each of the matters listed in paragraph 14 of this petition.

16. Petitioner believes that the reasons set forth in this petition justify the granting of the conditional use permit.

17. Petitioner would show that the planned use of the property and the conditional use permit would be in harmony with the general purpose and intent of the land uses permitted in the use district where the property is located, and would not be injurious to the neighborhood or detrimental to the public welfare.

18. The required $150.00 filing fee has been paid with the filing of this Petition.

Respectfully submitted,

Mr. Jordan Lohman
City of Ridgeland
Community Development
100 W. School Street
Ridgeland, MS 39157

Dear Mr. Lohman:

This letter is to address the traffic and parking impact concerns from the change in use plan at the referenced development. The owner is asking for approval of a Conditional Use Permit to change from the previous office space use to residential use in Buildings 6000 and 8000 of the referenced development.

Neel-Schaffer reviewed the proposed changes and has determined that fewer trips will be created due to the change in use from Office Space to Residential Space. The weekday daily trips generated for the office space is approximately 322 assuming a total square footage of 22,876. When the same space goes to residential use, the daily trips generated would be no more than 210. During the peak hour, the trips generated for office space would be a max of 49 per hour versus for the residential space generates no more than 30 per hour.

From a parking generation standpoint, the weekday office daily parking required is expected to be 64 per day and for residential it would be 22.

These estimated trips and parking space requirements were determined using sources from the *Institute of Transportation Engineers Trip Generation Manual* and the *Parking Generation Manual*.

In summary, Neel-Schaffer feels that the change in uses from office to residential would not have any additional impact to trips generated or parking spaces required. In fact, both of those should decrease based on the above information.

Please let me know if you have any question or concerns.

Sincerely,

NEEL-SCHAFFER, INC.

Mr. Giessner opened the Public Hearing on the Petition and Application for Conditional Use Permit for Renaissance at Colony Park, LLC for property located at 1000 Highland Colony Parkway and identified by tax parcel number 071F-24D-021/00.00. The subject property is presently zoned MU-1 Mixed Use District. Mr. Andrew Mattiace appeared and spoke on behalf of the Petition confirming notice was sent. Mr. Mattiace addressed the Zoning Board and stated Petitioner is requesting the conditional use permit to allow residential dwelling units at current development on the subject property. The site currently includes retail space, office space, restaurants, and entertainment businesses. Mr. Mattiace stated the requested conditional use is for Buildings 6000 and 8000. The first floor of the buildings is and will remain 100% commercial. The second floor will consist of 21 residential units. There is one current commercial tenant on the second floor, which takes up two units so the total could be 23 residential units if this tenant relocated. The proposed dwelling units would have a separate entrance from the commercial and would require a fob and/or key card for entry. The units will have gas fireplaces and have a fire safety system.

Opposition was given an opportunity to respond, but there was no opposition present.

Mr. Giessner closed the Public Hearing and called for a vote on the Petition. On motion by Mr. Malone and seconded by Ms. Rice, the Board voted unanimously to recommend to the Mayor and Board of Aldermen that they approve the requested conditional use allowing

residential dwelling units on the MU-1 zoned subject property in the City of Ridgeland.

6). Submit the above application and information to the Office of the Chief of Police with a non-refundable filing fee of one hundred dollars ($100.00) along with the above referenced bond fee. Title: RECOVERED GUNS FROM THE ORCHARD

On December 8, 2021 Lt. Eddy Addison and myself, Evidence Custodian Jeremey Watkins, was contacted by The Orchard nursing home that they had some guns they wanted to sign over to the police department. When we arrived we met with Mrs. Sharon Sullivan executive director of the retirement home. She had stated that one of her patient had weapons in his room and wanted to give them away or donate them. Mrs. Sullivan suggested signing them over to the Police Department. Mrs. Sullivan had the guns in a black bag when we arrived. Myself and Lt Addison took the guns out and looked them over before taking the guns. There were four guns total: Smith and Wesson 500 SN CZZZ0419, Smith and Wesson 38 revolver SN C2T2019, Smith and Wesson .357 Revolver SN BRJ3992, and Colt 1911 SN FA04122E. The guns were transported back to the police department and secured in evidence.

The original case number for this case was 2021016935 but due to technical difficulties we had to pull a second case number. All paperwork and recorders were saved to show the two numbers are the same case.

Author: WARREN, BRUCE

Entered Date/Time: 12/19/2021 11:35 Report Type/Sequence: I 1

Title: RECOVERED PROPERTY

On Sunday, December 19, 2021, at approximately 1100 hours, I, Officer Bruce Warren, was dispatched to the Ridgeland Police Department (115 West School Street Ridgeland, MS 39157) in reference to a male in the lobby wishing to surrender a firearm.

Upon my arrival, I met with Andrew Tower Rennie (CT OLN: 019934409, DOB: 1/8/1991) who stated that he was wanting to surrender a Remington 870 12 gauge shotgun (serial-CC77330E), 10 boxes of Winchester Super X 12 gauge shotgun shells, and a Hoppe's 9 shotgun cleaning kit. The firearm belongs to Andrew's brother, Robert Norman Rennie (MS OLN: 802985105, DOB: 10/1/1988). Andrew was able to provide proof of purchase of the firearm.

Andrew stated Robert had recently moved from 611 Ralde Circle Ridgeland, MS 39157 to Rhode Island and did not wish to sell or attempt to register the firearm in Rhode Island. Andrew is in town moving the rest of Robert's belongings from Ralde Circle.

I ran the shotgun's serial number through RPD Dispatch and they advised there was no record on the firearm.

I was able to speak with Robert over the phone and confirmed that he wished to surrender the firearm, ammunition, and the cleaning kit.

Andrew completed a Voluntary Witness Statement and it is attached in the case file.

The shotgun, ammunition, and cleaning kit was secured and logged into evidence.
